# PROJECT OVERVIEW

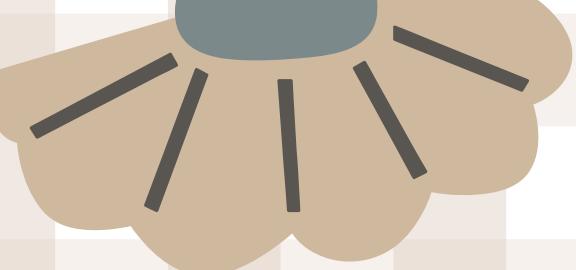

Fridgelly is a web platform that helps you manage your groceries, create healthy meal plans, and discover recipes based on what's already in your kitchen. It tracks your pantry items, alerts you before food expires, and generates personalized meal plans tailored to your health goals. By reducing waste, saving time, and making cooking easier, Fridgelly helps you eat healthier and live more sustainably all in one place!

LET'S EXPLORE  
ABOUT OUR  
WEBSITE!

# PROBLEM STATEMENT

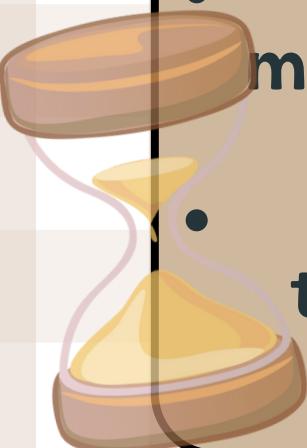

## FOOD WASTE

- Many households throw away ingredients because they forget what they have or fail to use them before expiry.
- Globally, 1.3 billion tons of food is wasted each year, costing billions and contributing to environmental harm.

## TIME WASTED SEARCHING FOR RECIPES

- People often spend 15–30 minutes or more looking for meal ideas online.
- Even when recipes are found, they often require ingredients that aren't readily available.

## LACK OF HEALTHY EATING PLANS

- Busy lifestyles make it difficult for people to plan balanced meals.
- Many end up choosing fast food or processed meals, which can lead to poor nutrition and health issues.

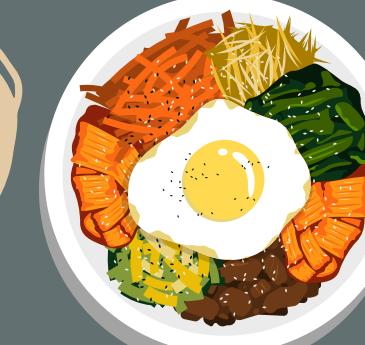

THAT'S WHY WE CREATE FRIDGELLY!

Feedback From Customer

22 AUG 2021 ★★★★★

Rafiq Arsyad, Johor

"Fridgelly has completely changed the way I cook! I love how I can find recipes based on the ingredients I already have at home."

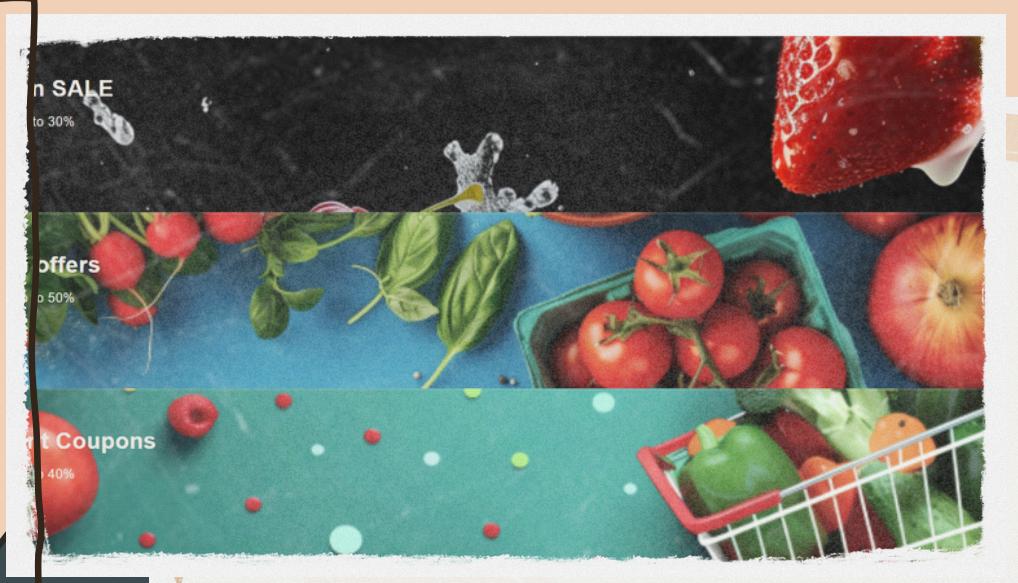

25 AUG 2021 ☰ TRENDING

Amir Luqman, Selangor

"The step-by-step instructions are so easy to follow. Even my 12-year-old made dinner for us last night!"

# HOW IT WORKS

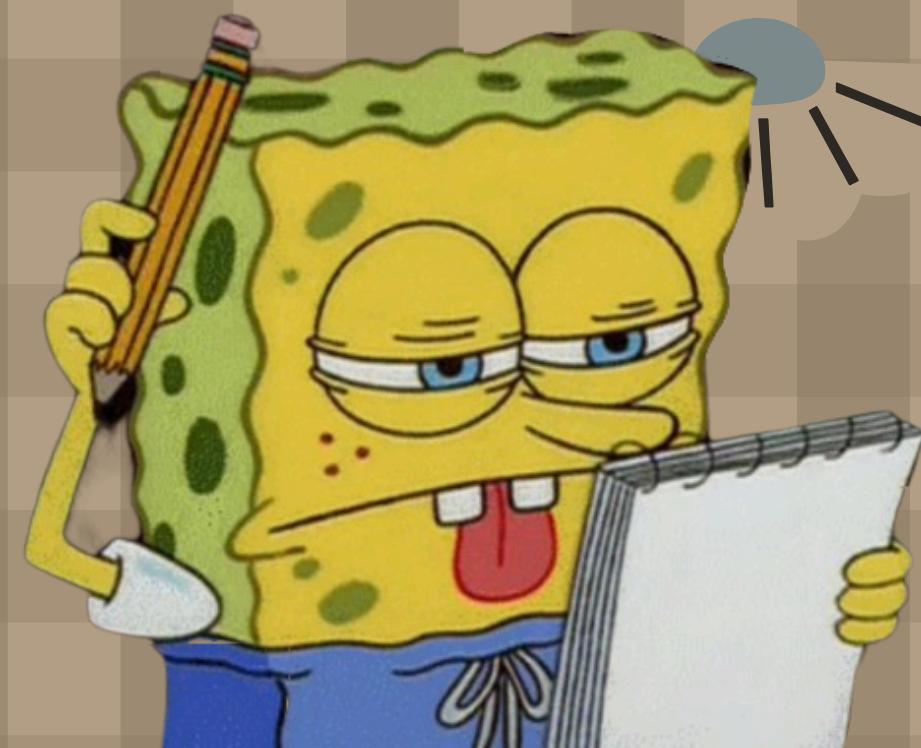

**Step 1 – Add Groceries**  
Snap picture or manually input your pantry items with expiry dates.

**Step 2 – Get Recipe Suggestions**  
AI suggests recipes using only the ingredients you already have.

**Step 3 – Plan Meals**  
Select from healthy, customizable meal plans based on your dietary goals.

**Step 4 – Enjoy Cooking & Save**  
Follow recipes, reduce waste, and enjoy nutritious meals while saving time and money.
